The hours and hours of practice. The wrong notes. The missed beats. The frustration. I want to quit. More practice. Will I ever learn this? More practice. Then one day, some of it starts making some sense. My confidence grows. I can do this. Not perfect, but a start. More practice. Then I get a tune together -- rough, but recognizable. Practice becomes more tolerable. Then it gets better and better. Maybe I do a little more practice on my own. My friends and I play together. Maybe I could join the band. I hold my own. Actually, I sound pretty good. Practice becomes enjoyable. The band sounds better and better as a group. My part of the band performance is awesome because I practiced!

Just 15 minutes of practice a day, provides a skill and personal satisfaction that will last a lifetime.

On February 6, 2015, the Wood-Ridge and Moonachie Schools held their 5th Annual Band Festival where students practiced, then showcased their skills. They did a great job. See photos on pages 18-19.
Making, Tinkering and STEM-based Learning

Lodi Library is participating in the First Annual NJ Makers Day on Saturday, March 21, 2015, starting at 10:30 a.m. NJ Makers Day is designed to be a statewide single-day event that celebrates, promotes, and in many cases may introduce maker culture, as well as the values associated with making, tinkering and STEM-based learning.

Popular equipment includes 3D printers, single board microcontrollers like Arduino and Raspberry Pi, robotics, digital media production, computer programming, textile and handicrafts and more.

Programs include:
- Makey Makey kits for children that interface with laptops in creative ways.
- SpinBots. A conductive and insulating dough, that when combined with simple LED lights can “light them up!”
- Brushtbots, made from toothbrushes and batteries.
- TinkerCad and 3D printing workshops.

Lodi Library will continue with Makers programs on Saturday March 7, 14, and 28. Check Library for details.

For more information, call Lodi Library at 973-365-4044. Find out more about NJ Makers Day at www.njmakersday.org

Healthy Homes and Safety Workshop

The Free Public Library of Hasbrouck Heights is pleased to sponsor a seminar entitled “Healthy Homes.” The seminar is being presented by members of the organization, Partnership for Maternal and Child Health of Northern New Jersey. This seminar will be held on Tuesday, March 31, 2015, from 7 to 8:30 p.m., in The Library conference room. All attendees will receive a free healthy homes tool kit.

You will learn about the seven principles of a healthy home and cover topics including identification of home health hazards, reduction in the risk of allergy and asthma symptoms, making contaminant free cleaning products, protecting yourself during water damage cleanup, mold remediation, pest management and more.

The Partnership for Maternal and Child Health of Northern New Jersey received a grant from the New Jersey Department of Health to conduct these programs aimed at increasing knowledge about maintaining a healthy home. It is a non-profit organization of health care professionals and consumers dedicated to providing education and increasing community awareness for the delivery of high quality coordinated maternal and child health care.

To register please call 201-795-2828 or log on to http://hasbrouckheights.bccls.org and go to calendar. ###

Easter Basket Collection
FROM THE PORCH:
Thank you to all who continue to leave food donations in the box at Holy Trinity Lutheran Church. The area food pantries are always particularly grateful. Unfortunately, hunger knows no season. In addition to food donations, from February 1 to March 15, 2015, they will be collecting items for Easter baskets. Lutheran Social Ministries of New Jersey distributes these baskets to the many needy children in our state, sharing the joy of Easter with those whose lives are often stressful and difficult. They are asking for donations of Easter candy, plastic eggs, small toys or craft items that can be fun for both boys and girls — coloring books, small stuffed animals, yo-yos, bubbles, etc. Please avoid items such as guns, action figures or other toys with violent themes.

SWIM (Single Women in Mission) of Holy Trinity thanks you for your help with their projects. In so many small ways we can each make a difference as we reach out together From the Porch to Those in Need.

For more information call 201-288-6889 or visit www.holytrinityhasbrouckheights.com. ###

Leprechaun -- a creature in Irish mythology. In Irish mythology, a leprechaun (Modern Irish: leithreachán) is a type of male faerie said to inhabit the island of Ireland. Leprechauns and other creatures of Irish mythology are often associated with “faerie forts” or “faerie rings,” often the sites of ancient (Celtic or pre-Celtic) earthworks or drumlins.

They usually take the form of old men who enjoy partaking in mischief. Their trade is that of a cobbler or shoe maker. They are said to be very rich, having many treasure crocks buried. According to legend, if anyone keeps an eye fixed upon one, he cannot escape, but the moment that there is withdrawn be vanishes.

Leprechauns rarely appear in what would be classed as a folk tale; in almost all cases the interest of these stories centers around a human hero.

Stories about leprechauns are very brief and have local names and scenery attached to them. In most tales and stories, leprechauns are depicted as harmless creatures who enjoy solitude and live in remote locations, although opinion is divided as to if they ever enjoy the company of other spirits. Although rarely seen in social situations, leprechauns are supposedly very well spoken and, if ever spoken to, could make good conversation.

The modern image of the leprechaun is depicted wearing an emerald green frock coat and bestowed with the knowledge of the location of buried treasure, often in a crock of gold. ###

W-R Knights Corned Beef Dinner March 14

As Irish as Corned Beef and Cabbage?

Every St. Patrick’s Day, thousands of pounds of corned beef are consumed by Americans in the mistaken belief that they are partaking of the food of their ancestors in Ireland. Yet, one would be hard pressed to find this dish in many parts of the Emerald Isle. For, over three hundred years, we have immigrated to America. The first St. Patrick’s Day parade was not held in Dublin but in New York City in 1762. However, the largest contingent came in the 1840s because of the “Potato Famine” and, as it is called in Ireland, the “Great Hunger.”

Many immigrants settled in the poorer sections of New York City such as Hell’s Kitchen and the Five Points section of lower Manhattan.

From these locations came the vast majority of men who made up the famous 69th New York Infantry Regiment. The regiment was the cause of an international incident in Ireland when their commander, Col. Michael Corcoran, refused to parade the regiment in honor of the Prince of Wales’ visit to Ireland. However, Col. Corcoran was placed under arrest but with the outbreak of the Civil War, all charges were dropped.

A green flag honoring their actions in defiance of the Prince was presented by the Irish citizens of New York. This flag was carried at the Battle of First Bull Run. Confederate General Robert E. Lee was so impressed with their bravery and devotion to duty when he faced them on the battlefields, that he called them “The Fighting Irish.”

The 69th was again called to war in 1917. They had their regimental number changed at this time to 165th Infantry regimental number, of the New York National Guard and has served in WWII, WWII, Iraq and Afghanistan.

While pork was the meat that these immigrants were most familiar with, it was rather more expensive than the abundant beef here in America. By the 1860s the dish was so popular that it was served at President Lincoln’s inauguration dinner.

The Irish assimilation into American society was influenced by their interaction with the other ethnic groups that cohabitated in these slums. This was not always done in an amicable manner. The perpetrators of the “DRAFT RIOTS of 1863” were in large part the inhabitants of Hell’s Kitchen who felt the draft was a way the rich could buy their way out of serving in the Army.

As poor men they would be forced into the Army. Orange men parading up 4th Avenue on July 18, 1863 had written on their banner with “Irish Confronts” (bricks, cobble stones, full chamber pots, etc.) from the roof tops. This led to a full fledged riot. Shailagh law, all the rage. The local police could not stop the mayhem. The Militia was called and fired in to the mob killing thirty and wounding at least two men before the riot ended.

There were two things that they were denied in Ireland but were readily utilized here in America. Poor Irish tenant farmers had no access to an education. In America, education opened the eyes.

Here, as new citizens of The United States, they had the right to vote. In Ireland only landed gentry could vote. They voted against both parties.

The term “Narrow Back” was applied to first generation Irish Americans. This indicated that they were more able to educate their children and improve their station in life, they would not be forced to do menial work as their “Broad Shouldered” parents did.

It was the willingness of these new immigrants to work hard to improve their lot and offer loyalty to their adopted country. They advanced to the point in 1961 that an American of Irish descent, John F. Kennedy, became President of The United States.

So when you partake of this dish, think not only of St. Patrick but also of all the men and women of Irish descent who have helped to make America great. Story by James Halloran. ###

Since its inception as a monthly June, March has always had 31 days. Yet originally it was the first month of the year. This was probably because of its association with the first day of Spring. The vernal equinox falls during this month - the 20th or 21st. ###

Felician College Students Offer Free Tax Preparation

Members of Felician College’s Young Entrepreneur’s Club are once again partnering with the Internal Revenue Service to offer free tax preparation services to those who qualify. Through the IRSC’s Volunteer Income Tax Assistance (VITA) Program, Felician students have been trained by IRS personnel to prepare uncomplicated tax returns. Under the guidance of Felician College professor Joseph A. Lizza, MBA, CPA, CGMA, these student volunteers provide free income tax preparation assistance to low income, elderly, disabled and limited-English-speaking community members.

The VITA volunteers will prepare the following:
- Forms: 992, 1040EZ, 1040A, 1040
- Schedule A, B, EIC and R
- Forms 1099-INT, 1099-DIV
- Form 8812 (Additional Child Tax Credit)
- Form 8888 (Direct Deposit)
- Form 933 (Credit for Federal Tax Deposits)
- Form 8863 (Education Credits)
- Form 8824 (Low-Income Home Energy Credit)
- Form 8889 (Credits for Qualified 2015 Ryder Cup Expenses)
- Form 8939 (Professional Employer Organization (PEO) Information Return)
- Form 941 (Employer’s Quarterly Federal Tax Return)
- Form 941-EZ (Simplified Employer’s Quarterly Federal Tax Return)
- Form 940 (Employer’s Annual Federal Unemployment (FUTA) Tax Return)

The program will run on the following Saturdays on a first come, first served basis:
- March 7, 14, 21, and 28, 2015, from 10 a.m. to 2 p.m. at the Felician College Business Library, Blessed Mary Angela Hall, One Felician Way (a cross street of West Passaic Avenue, between Montross Avenue and Wood Street), Rutherford, NJ 07070.

“The Young Entrepreneur’s Club is very excited to continue working with the community in providing this vital service as an outreach program and learning experience,” said Matthew Kmetz, President of the Young Entrepreneur’s Club. The Felician College Young Entrepreneur’s Club is pleased to announce that volunteers this year will not only come from Felician College, but also Ramapo College and Rutgers University. If you have any questions, please call Professor Lizza at 201-559-3321. ###

"Spring Forward"

Daylight Saving Time will commence on the second Sunday in March and end on the first Sunday in November.

At 2 a.m., on March 8, 2015, clocks should be set forward one hour ahead of standard time, springing forward.

Daylight Saving Time allows us to use less energy in lighting our homes by taking advantage of the longer and later daylight hours.

Daylight Saving Time was instituted in the United States during World War I in order to save energy for war production by taking advantage of the later hours of daylight between April and October.

During World War II, the federal government again required the states to observe the time change. Between the wars and after World War II, states and communities chose whether or not to observe Daylight Saving Time.

In 1966, Congress passed the Uniform Time Act which standardized the length of Daylight Saving Time.

The Act extended Daylight Saving Time by four weeks from the second Sunday of March to the first Sunday of November, with the hope that it would save 10,000 barrels of oil each day through reduced use of power by businesses during daylight hours.

Unfortunately, it is exceedingly difficult to determine energy savings from Daylight Saving Time and based on a variety of factors, it is possible that little or no energy is saved by Daylight Saving Time.

The idea of daylight saving was first conceived by Benjamin Franklin in 1784. A study by the U.S. Law Enforcement Assistance Administration found that crime was consistently less during periods of Daylight Saving Time than during comparable standard time periods. Data showed violent crime down to 13 percent. It is clear that for most crimes where darkness is a factor, such as muggings, there are many more incidents after dusk than before dawn, so light in the evening is most welcome.

Online calendars can help your computer update automatically. When to spring forward or fall back, many people just change their clocks before going to bed, or reset them in the morning when they wake up, rather than changing the clocks exactly at 2:00 in the morning.

Be careful when changing your clocks before bed, though - some clocks are smart enough to change the time automatically for DST. If you change the time manually, you may end up an hour off.

HH Garden Club News

On March 19, 2015, the Garden Club, along with The Library, will be presenting Rick Mikula at their meeting. Rick is the owner and operator of Hole-In-Hand Butterfly Farm and MonaeMae Butterfly. Rick is the President of the International Butterfly Breeders Association and Vice President of Education for the Canadian Butterfly Breeders and Exhibitors Association.

He is instrumental in initiating the race to become the NJ state butterfly.

Rick is the co-founder of Butterfly website.com, which is the oldest and largest butterfly website in the world. He has written many books on butterflies, writes regular columns for several magazines and is personally featured in hundreds of newspapers worldwide.

Rick is an internationally recognized lecturer and in the last 24 years has conducted thousands of high energy and fast paced presentations for all types of groups from Pre-K daycare to college.

His “Spread Your Wings and Fly” seminars have trained hundreds of people to become professional butterfly producers.

Everyone is invited to come and meet this knowledgeable and interesting person.

This program is open to all. Refreshments will be served. The meeting will be held at 7 p.m. in the Senior Center located at 320 Boulevard, Hasbrouck Heights. The Senior Center is located on the corner of Central Avenue. There are two parking lots available for the building located on Central Avenue.

Registration is required. Children must be accompanied by an adult. Call The Library at 201-288-0488.

Preparing Your Garden

Before digging, test for dampness. Soil should be fairly dry and crumbly when rubbed between your fingers. Lift soil in chunks, turn and shatter with a spade or pitchfork. Follow fertilizer instructions remembering less is better. Bake surface smooth.

Things to Do in Your Garden

• Remove winter mulches
• Clean up the garden/weed
• Have soil tests run
• Improve soil with organic material and pre-plant incorporation of fertilizer
• Rake & ake lawn
• Apply lime if needed
• Reset perennials that have frost heaved
• Start vegetables and flowers from seed
• Sow seeds outdoors of hardy annuals, such as poppies and cornflower
• Plant sweet peas and garden peans on St. Patrick’s Day, if soil is workable
• Plant cold-tolerant vegetables such as onions and peas (mid to late month)
• Look for and remove cedar-apple rust galls on Eastern red cedar

Chamber/Garden Club Boulevard in Bloom

Help Keep the Boulevard in Bloom

Beautiful flowering plants have adorned The Boulevard for over 10 years.

The Hasbrouck Heights Chamber of Commerce, in cooperation with the Hasbrouck Heights Garden Club, invites businesses and residents to sponsor a flowering planter by making a $50 donation.

The planting will be done by the Garden Club at the DPW after the May 15 frost date.

Once the plantings have been completed, the DPW will then move the flower pots to their Boulevard location, and has agreed to water the plants during the season. After the summer, the DPW will collect the flower pots and store them for the winter.

The Beta Club from the Hasbrouck Heights Middle School will lend a hand over-seeding and pruning the planters throughout the summer.

A donation of $50 will replenish an existing planter with lovely flowers and greens.

Your donation of any amount is welcome.

You can send donations to: Hasbrouck Heights Chamber of Commerce BB, PO Box 1, Hasbrouck Heights, New Jersey 07604.

Call Ray at 201-288-5464 or Ann at 201-288-3956 for more information.

Beware the Ides of March

Those familiar with history or William Shakespeare’s play “Julius Caesar,” recognize the reference to March 15, the day of Julius Caesar’s assassination in 44 B.C. after declaring himself dictator of Rome for life.

“Beware the Ides of March” is the soothsayer’s message to Julius Caesar, warning of his death and has forever imbued that date with a sense of foreboding.

After Caesar’s untimely exit, several editions of Romans may well have avoided launching a business, marriage or other important venture on a date so clocked in doom it eventually entered the lexicon as a metaphor for impending catastrophe.

But in Roman times the expression “Ides of March” did not necessarily evoke a dark mood — it was simply the standard way of saying “March 15.”

A Roman saying, “four Ides,” meaning four days before or after Ides, would be just as clear to other Romans as someone saying March 11.

For ancient Romans, an Ides was merely one of several common calendar terms used to mark monthly lunar events. The Ides simply marked the appearance of the full moon. Each month has an Ides (usually the 15th) and this date wasn’t significant in being associated with bad luck or doom.

RLC Student Receives International Recognition

Robert L. Craig School’s own Katelyn Spadavecchia (8th Grader) has been selected as one of the 23 National Merit Award Winners in the International Lions Club Peace Poster Contest.

Ms. Lee Ten Hoeve, art educator, has been participating in this contest for years, but this is the first time we have had a student place nationally. It should be noted Katelyn won for all of New Jersey before she moved to the national level a few weeks ago, which in and of itself is remarkable.

Mr. Rich McCullough (the Lions Club representative) arrived at the school to read Katelyn her award letter. She will be presented with a $500 cash prize and be honored at three events hosted by the Lions Club.

The posters were judged at Club, district and multiple district levels before reaching the international level, at which point they had been narrowed down to 132 posters. Based on creativity, originality and portrayal of the theme, “Peace, Love and Understanding,” Katelyn’s poster was chosen out of 400,000 entries to be one of the 23 National Merit Award recipients!

Only four other USA entries won merit recognition. Other award winners came from various countries including China, Columbia, India, Italy, Sweden, Thailand, Finland, Indonesia, Philippines, Romania, Slovenia and Taiwan.

This is a really amazing achievement and a great success for this small school and community to be recognized on a national level! They commend Katelyn for her efforts and extraordinary talent.

Please note all drawing was done by hand and there were no digital components or tracing allowed. The piece is mainly colored pencils and watercolors. Provided by Ms. Lee Ten Hoeve, Robert L. Craig School Art Educator, and Dennis布鲁克, W-R Lions Club. ###

Collection Drive for Center for Hope and Safety

Under the direction of the Fourth Grade teachers and Mrs. Puig, Guidance Counselor, the Fourth Grade students at McKenzie School in East Rutherford spearheaded a collection drive for the Center for Hope and Safety. The collection reinforced the character education themes of Compassion and Generosity.

Azzolini Good Sportsmanship Award

Congratulations to Hailey Montefusco, the recipient of the Anthony Azzolini Good Sportsmanship Award. This award is presented to the Sr. wrestler that represents Rutherford High School. He or she must exemplify the spirit of fair play that Anthony Azzolini exemplified. He was one of those competitors who was always in the fight and never quit. He was always striving to learn and do better the next time. He made sure no matter what the challenge he gave it his all and did so with sportsmanship, character and integrity. Anthony never boasted about his accomplishments but just enjoyed the fight and the competition.

Besides wrestling, Anthony enjoyed playing baseball and golf. He loved life and lived it to the fullest. He was a prankster who had a laugh that was very contagious. He adored his four children, Lyndsey, Anthony, Christopher and Jill. They inherited his love of sports. Anthony was a great son, brother, husband, uncle and father. His love of sports will live on through this sportsmanship award: “Remember a life and legacy bonded by wrestling, a tribute to an enduring spirit.” Provided by Barbara Bennett. ###

On January 22, 2015, a group of 6th Grade students from A.S. Faust School in East Rutherford shared their Personal Narratives at the Board of Education meeting. This was a two month writing project in which students gained inspiration from the memoir, “Knots in My Yo-yo String,” by Jerry Spinelli. In addition to reading their stories, students explained specific writing strategies learned from Jerry Spinelli with PowerPoint presentations. Provided by Jessica Gerity. ###
In conjunction with “March is Music in our Schools” month, the Wood-Ridge Jr./Sr. High School, the W-R Intermediate School Band and the R. L. Craig School from Moonachie had a day of music making on Friday, February 6, 2015.

About 123 students participated in the 5th Annual Wood-Ridge and Moonachie Schools Band Festival 2015. This is the first time that the Moonachie band joined in on the fun.

These young musicians attended individual instrument workshops in the morning, then assembled in the auditorium for group practice. They put on a combined performance for the public at 12:30 p.m. All the band students in the district participated in the band performance. There were many parents in the audience.

The W-R Jr./Sr. HS Band began with “Star Spangled Banner.” The program concluded with all bands together playing “We Will Rock You.”

Sets included flute ensemble, flute quintet, clarinet ensemble, W-R Jr. Sr. HS Band, directed by Mrs. Toni Baumgartner, Moonachie Wind Ensemble, directed by Mr. Michael Santoro and W-R Intermediate School Band, directed by Ms. Caitlin Payne.

The Intermediate School musicians are in Grades 4-6. Students study their instrument and take lessons during the school day. They also have full band practices monthly.

It was noted that each of the elementary schools have a formal band program built into the school day. The Jr./Sr. High School students have 3 classes of Band that are offered during the day and also practice after school as a club. Most band members of this club participate in the school concert band, pep rallies and football games. The WR Jr/Sr HS Band had a small but mighty Marching Band last fall and these players form the nucleus of the Concert Band.

99% of the instrumental students in the Wood-Ridge Jr./Sr. High School Band take Band as a class each and every day.
School-wide Band Festival

Come one, come all to celebrate the Performing and Visual Arts in Wood-Ridge. Admission is free and open to the general public. Here are the dates for all the schools in the district.

- The Wood-Ridge Intermediate School will host their Spring Concert on Tuesday, May 19, 2015 at 1:30 p.m. in the John H. Bischoff Memorial Gymnasium at Wood-Ridge Intermediate School.

Wood-Ridge School Spring Concerts

- Wood-Ridge Jr./Sr. High School (Grades 7th - 12th) will be having their annual Visual & Performing Arts Spring Concert on Tuesday, June 2, 2015, at 7 p.m. in the Wood-Ridge High School Auditorium.
- Catherine E. Doyle Elementary School (Grades Pre-K - 3rd) will hold their annual Spring Concert on Thursday, May 21, 2015, at 9 a.m. in the Doyle Gym

They also offer a half period called “Lunch Band” where the students rehearse half a period and eat lunch the other half.

This new arrangement allows students to accomplish much, and improve their musical skills.

The event’s goal was to continue the excitement of the Wood-Ridge music program. Aware of all the cuts going on around the state, they would like to share the importance of music in schools.

Leonardo Leuci, 11th Grader, was selected to perform at Bergen County Choir and Band Festival in January 2015. This Band Festival was under the direction of Mrs. Toni Baumgartner (Jr/SrHS Band Director), Ms. Caitlin Payne (Intermediate Band Director), Mrs. Melissa Ayvas-Manolakakis (Choir and Glee Club Director), Mr. Michael Santoro (Music Director, R. L. Craig School, Moonachie).
Going for the Gold

On Sunday, February 8, 2015, the Hasbrouck Heights Recreation Department hosted their 9th Annual Invitation-al Wrestling Tournament at the Hasbrouck Heights High School Gym. The event was open to the public.

Participating were 9 recreation department teams from: Hasbrouck Heights, Lodi, Paramus, Union City, Garfield, Saddle Brook, Wood-Ridge, Hawthorne and Hackensack.

Winners advanced to the February 22, 2015 tournament, formerly the Andy Feintuch Wrestling Tournament, but the name was transferred to the Andy Feintuch District 5 Championship in 2010.

The top two finishers in each weight class will move on to the the North Jersey Regional Championships in Hackensack, Sunday, March 21, 2015.

Hasbrouck Heights coaches were Mike Scuilla, Jim Ryan, Andrew Nass, Tony Dussault, plus several volunteer fathers who coached.

Concessions were staffed by Recreation Wrestling Parents, organized by Coleen Rinke. For more information call Recreation Director Robert Brady at 201-288-4143.

The Twin County Junior Wrestling League was co-founded by Andy Feintuch in 1976-77 with seven teams. Today there are over 55 teams competing in Northern NJ. These are all recreation and town teams and no Club teams on the local level. For more information go to: www.tcjwl.com ###

Lodi Mid-term Reorganization

A mid-term reorganization meeting was held on February 10, 2015, due to Mayor Marc Schrieks resigning effective January 31, to serve as Bergen County Executive James Tedesco’s deputy chief of staff for government affairs and constituent service. Replacing Schrieks as Mayor, is senior Lodi Councilman Bruce Masopust who served on the Council from 1986 to 1995 and from 2007 to present. He previously served as Lodi Mayor from July 2009 to June 2010 and July 2011 to June 2012. He will serve as Mayor until June 2015. He is employed as an attendance counselor at Lodi High School. Former Councilman Emil Carafa was chosen to fill Schrieks’ Council term. He served on the Council from 1986 to 1991. He is employed as principal of Washington Elementary School.

All five Council Members’ four-year terms expire on June 30. Under the 1923 Municipal Manager Law, Council Members are nonpartisan and elected to four-year terms. Council Members then choose one of their members to serve as Mayor for one year. Lodi’s municipal year starts on July 1.

Replacing Schrieks as Mayor, is senior Lo di Councilman Bruce Masopust who served on the Council from 1986 to 1995 and from 2007 to present. Celebrating a Century of Life

Tony Giuseffi was given a surprise 100th Birthday Party by the members of the Contemporary Club of Wood-Ridge. The affair took place at the Wood-Ridge Senior Center on January 22, 2015. Even though the party was held in the evening, more than ninety per cent of the members of the Club attended.

Four generations of the Giuseffi Family were on hand to celebrate with him. A family Birthday Party was planned for the date of his actual birthday, January 31st.

Tony was born in Passaic in 1915, when Woodrow Wilson was President. He attended Passaic grammar school, Saint Mary’s High School (where he had a successful football career) and went on to graduate from Stevens Institute of Technology. Tony met the love of his life, Virginia Willian, while in high school. They were married on June 13, 1940.

In March, 1942, Tony and Virginia bought their house in Wood-Ridge and were happily married for sixty-two years until her death in 2002.

They raised five children, Gail, Claire, Jeri, James and Tom, 9 grandchildren and 13 great grandchildren. Tony still lives in the same house, does his own cooking and is very active in his community.

After graduating from college, Tony started his career as a production and inventory control clerk for Walter Kidde & Company in Belleville. They manufactured firefighting and life-saving equipment, but when World War II broke out they focused solely on defense equipment. While there, Tony was promoted to Assistant Director of Aerospace Systems.

In 1967, Tony left Walter Kidde and opened his own consulting firm that offered engineering and technical prospects to large manufacturers. He also started Administrative Technical Consultants in Totowa. This was a search firm that provided administrative and technical services to companies. The business thrived. Tony was able to sell it and retire in 1980 at 65 years of age.

During his 73 years in Wood-Ridge, Tony has served his community as a member of the Wood-Ridge Police Marshall, County Committee for the Democratic Party, Welcoming Committee, and Juvenile Conference Committee.

At his Church, Our Lady of the Assumption, he is a past president of the Holy Name Society, Assumption Players, Lectors and Eucharistic Ministers. He is a charter member of the St. Anthony Council, Knights of Columbus.

He is active today as a Eucharistic Minister, officer in the Knights of Columbus, member of the Contemporary Club and attends a senior aquatic fitness class at the Boys’ and Girls’ Club of Lodi.

When commenting at his Birthday Party he said, “You all have the same opportunity to reach 100, just keep breathing.”

His advice on how to live a long life is “Live one day at a time and do the best you can to please God.”

Tony was also honored by the Wood-Ridge Mayor and Council for his service to the community.

At the 11 a.m. Mass held at Assumption Church on February 2, 2015, Tony was awarded the Holy Name Province Francis Medal by Pastor Rev. Richard Mucowski. Many family members and past priests who served at the Church were in attendance.

The Holy Name Province Francis Medal was established in 1998 by then Provincial Minister John Felice, OFM. Recipients are people who display an uncommon contribution to the advancement of the ideals and values of St. Francis. Photosand story by Marie and Peter Gallo Jr. ###

AARP Members are Entertained by Acoustic Duo

For the meeting held on February 13, 2015, the day before Valentine’s Day, the Central Bergen Chapter of AARP decided they wanted something special for their entertainment. Knowing that there are hundreds of different ways to express affection on Valentine’s Day, they decided that sometimes a special song can do it best. The right song can bring back many fond memories of happy days with someone special.

Jeff and Karen, Acoustic Duo was selected. The duo had entertained the chapter four times in the last ten years. They had never let the chapter down in the past and they did not this year.

They sang sixteen love songs, many familiar, but each having a way of touching the members. Some of the songs were “The Rose,” “Love Potion No. 9,” “Stupid Cupid,” “You Light up my Life,” “Crazy,” and “The Wind Beneath my Wings.” Their selections included ballads, pop, country, rock, hip-hop and novelty songs.

Singer/songwriter Jeff Penuke and songstress, Karen Fairweather performing as Jeff & Karen – Acoustic Duo have been singing together since they met eleven years ago.

Since that meeting they have sung in coffee houses, wineries, restaurants, etc. throughout the state of New Jersey. They have also performed in New York, and Massachusetts. They perform a memorable musical performance with their solos and harmonizing.

They did a great job at the AARP meeting. Most of the time they worked together and at times Karen circulated throughout the audience while singing. She also passed out candy kisses while circulating.

If you do not wear a hat, you will be assessed $3. Come prepared. D. ###

Seniors Take an Imaginary Trip to New Orleans

With a grand piano, Mark Wright entertained the members of the Leisure Club on February 11, 2015. To say he entertained would not do justice to his presentation. Mark touched all with his enthusiastic, from the heart comments of his love of jazz music.

Let’s start at the very beginning. Before he retired, Mark Wright was a teacher at Northern Valley Regional High School in Demarest. He taught English, Humanities, Film and Creative Writing. But his love for music had him spend many of his summers in New Orleans – exploring the origins and traditions of the rhythm of the city.

He listened to the great jazz players, bought their recordings and learned how to play their music. Eventually, he was given the opportunity to join them at the piano and played in their band. This opportunity was spread over 30 years. It should be noted that Mark does not read music, he plays by ear.

During his presentation he played many familiar selections. First, as we may have heard them, and then with the New Orleans’ jazz interpretation. He went into great detail describing what the city of New Orleans looks like and zoned in on the festivities of the Mardi Gras. Mark is a dynamic, knowledgeable speaker who enjoys his topic and provides a number of valuable insights about New Orleans jazz. The audience loved every minute of his presentation. Hospital Observation vs. Being Admitted Could Cost you Dearly!

We hear stories frequently of those on Medicare entering the hospital and returning home only to find large medical bills awaiting for them in their mailbox. Many seniors are shocked when they find out that being in a hospital for days does not always mean they were actually admitted.

What is Observation Care?
Hospitals provide observation care when patients are not well enough to go home but not sick enough to be admitted. Centers for Medicare & Medicaid Services (CMS) recognizes observation status as outpatient care, like seeing a patient in a walk-in-clinic even though you may stay as long as several days. Unlike New York and Maryland that have passed laws to inform you of your status while in the hospital, N.J. leaves it up to the patient to find out how they have been classified.

How do I know if I’ve been assigned observation status or inpatient status?
Since observation patients are a type of outpatient, some hospitals have a special wing of the hospital for those patients. But, many hospitals put their observation patients in the same rooms as their inpatients. It is difficult for you to determine if you’re an inpatient or an observation patient. You cannot assume that, just because you’re in a regular hospital room that you are an inpatient. Nor can you assume since you have been in the hospital for a few days you are an inpatient. Although observation is usually for short periods of time, it does not always work that way.

What effect does this have on me?
If you have Traditional Medicare or a Supplement Plan you must be in admitted in the hospital for 3 days before Medicare & Supplement Plan will pick up the tab for the first 20 days in the skilled nursing facility. So for that knee or hip operation that you have coming up make sure you are admitted and not being observed or you may be paying the bill for the rehab and medications during your stay.

Most Commercial and Medicare Advantage Plans do not have the 3 day rule to have care covered. Legislation has been introduced (not voted on yet) in Congress that would count observation days as part of the 3 hospital days required for nursing home coverage and skilled Nursing Facilities. Medicare officials announced new rules last year requiring doctors to expect their patients to be in the hospitals more than 2 days be admitted and not be classified under observation.

What can I do to be proactive?
Rule of Thumb – Be an educated patient, be more involved with your healthcare decisions and ask lots of questions! For help, see the “Self Help Packet for Medicare Observation Status” at medicareadvocacy.org.

Filling You In

By Jeffrey E. Mason, D.M.D.

Why are minerals and nutrients important for oral health?

What is Fluoride?

Fluoride is a compound of the element fluorne, which is found universally throughout nature in water, soil, air and food. Existing abundantly in living tissue as an ion, fluoride is absorbed easily into tooth enamel, especially in children’s growing teeth.

Once teeth are developed, fluoride makes the entire tooth structure more resistant to decay and promotes remineralization, which aids in repairing early decay before the damage becomes evident. Two forms of fluoride protect the teeth: systemic fluoride and topical fluoride.

What is systemic fluoride?

Systemic fluoride is ingested into the body when added to public and private water supplies, soft drinks and teas and is available in dietary supplement form.

Once systemic fluoride is absorbed via the gastrointestinal tract, the blood supply distributes it throughout the entire body. Most fluoride not excreted is deposited in bones and hard tissues like teeth.

What’s topical fluoride, and when should I use it?

Topical fluoride is applied directly to the teeth. It is found in products containing strong concentrations of fluoride to fight tooth decay, such as toothpastes and mouth rinses. These products are then expectorated or rinsed from the mouth without swallowing.

Dentists recommend brushing with a fluoride toothpaste at least twice a day or after every meal, combined with a regimen of flossing and regular dental checkups.

Professionally administered topical applications of gels or varnishes are applied by a dentist and left on for about four minutes, usually during a cleaning treatment.

For patients with a high risk of cavities, the dentist may prescribe a special gel for daily home use, to be applied with or without a mouth tray for up to six weeks.

Why is drinking water fluoridated?

Fluoridated water protects against cavities and root caries — a progressive erosion of adult root surfaces caused by gum recession — and helps remineralize early carious lesions.

Thanks to these preventive benefits, public water fluoridation is considered the most efficient and cost-effective cavity prevention measure available. More than 144 million United States residents in more than 10,000 communities drink fluoridated water, most from public water supplies with arti-

ficially added fluoride. A small percentage get water from private wells with naturally fluoridated water.

The Environmental Protection Agency (EPA) has determined that the accepted “optimal” range of fluoride in water lies between 0.7 and 1.2 parts per million (ppm) or mil-
ligram per liter.

The limit allowed by the EPA in public water is 4 ppm. Backed by results from more than 150 documented studies undertaken in 20 different countries over the past several decades, fluoridated water ad-

hering to these standards has been scientifically established as safe for drinking. Water fluoridation is endorsed by nearly every major health and safety-related organization.

Fluoridated community water supplies is the single most effective public health measure to prevent tooth decay and to improve oral health for a lifetime.

Fluoride is applied industrially to water supplies is the single most effective public health measure to prevent tooth decay and to improve oral health for a lifetime. It is important for parents to discuss fluoride supplementation with their Dentist and Pe-

diatrician.

Relics of the Passion May 6

Most Sacred Heart of Jesus Church, 127 Paterson Avenue, Wallington, will host the Relics of the Passion program on Thursday, March 5, 2015 at 7 p.m.

The event is sponsored by Most Sacred Heart of Jesus Church in collaboration with the Apostolate for Holy Relics. The Apostolate is guardian for more than 1,200 relics organized into special collections, such as the 8 rare relics that make up Relics of the Passion.

The Relics have been venerated in many archdioceses and dioceses throughout the world. The WDP's schedule is generally scheduled only during the Lenten season and are limited by the travel availability of the members of the Apostolate. A presentation of the Relics of the Passion may only be seen in a given geographic area once, and very likely less twice or more times, in a lifetime.

Everyone is invited to attend this very memorable and moving program. For additional information, please contact Carol Puzio at 201-935-0273.

Pascrell Announces $4.58 Million in Federal Funds to Replace Moonachie Borough Hall

On February 11, 2015, U.S. Rep. Bill Pascrell, Jr. (D-NJ-09) announced that the Borough of Moonachie will receive $4,582,662 in Federal Emergency Management Agency funds to repair the borough hall that was destroyed by Hurricane Sandy.

The federal funds are a result of nearly a year of negotiations regarding an appeal to the previous replacement cost of $1.1 million reached in an agreement between FEMA and the borough of Moonachie - significantly higher than FEMA’s original estimate of $68,000.

“More than two years following Sandy’s devastation, these federal funds mark a significant step toward making Moonachie whole again,” said Rep. Pascrell. “After many months of negotiations, I am pleased to have worked with FEMA to help deliver this federal investment in Moonachie that will build a stronger Borough Hall in order to be better prepared against future disasters. This is a clear example of the federal government and the local community working together to make the rebuilding process work. I would like to commend Mayor Vaccaro and his team in Moonachie for the hard work to obtain a positive result.”

Hurricane Sandy caused a devastating tidal surge from the Hackensack River to inundate Moonachie and Little Ferry, leaving sections of both communities under water. As a result, Moonachie Mayor Dennis Vaccaro said, “The dedicated employees, police, office workers and professionals who have borne the stress of temporary surroundings will be able to offer municipal services in a location that will be the heart of the community, with the least amount of burden to the taxpayers. Many people and all times have had this possible.”

“These federal funds will help strengthen our municipal operations, and ensure that our brave first responders have the resources they need to keep our community safe. The new Borough Hall will be the permanent symbol of the resiliency and strength of the people of Moonachie. I thank Congressman Pascrell for his leadership and persistence in helping to make this federal funding possible as well as his continued commitment to the people of Moonachie,” said Vaccaro.

Stormy Weather: No Matter!

2015 is already shaping up to be a strong year for the housing market. Last month (it’s February as I write this) our sales agents reported already fierce buyer demand for home tours and offers, with busy open houses and even bidding wars involving a half dozen competing offers.

With demand surging, the question is: should you get your home on the market now, or follow the conventional wisdom and wait for more mellow weather and springtime?

Indeed, many people choose to do the latter and either let their listing expire, or pull their home off the market during the winter months.

The thinking is – among many sellers and even some agents – that it’s better to take a home off the market in winter in order to ‘refresh’ it and then re-list in the spring, since more homes sell at that time of year anyway.

Listing clients typically ask: “Isn’t it a waste of time? Won’t my house just sit on the market and become shopworn? Maybe the market will be better next quarter...” Well, I’m here to tell you: If you’re serious about wanting to sell your house, don’t wait. It should be on the market now!

Here are a few reasons why...

• Less Competition. One way that you can tell the spring real estate market has arrived is by driving down the street in any of our communities once the weather has warmed a bit. For Sale signs up all over the neighborhood!

Now – with still a foot of snow outside my window and temperatures in the 20s – there’s a lot less competition.

In fact, as I alluded to earlier, there’s currently a dearth of available inventory in our south-central Bergen County area.

Simply put, it’s the supply and demand theory. Not only will less competition increase the probability for showings, but it will also increase the probability that an offer will be received and you’ll get the maximum amount of money for your home.

• Serious Buyers Are Out There. Homes are bought and sold 365 days a year, rain or shine! Many homeowners believe that buyers aren’t out there during the fall and winter months.

Not true! Serious buyers are always out there! Some buyers may stop their home search during these months, but serious buyers will continue to look at homes, no matter what time of year it is.

• Mortgage Rates Are Low. If you’ve read a newspaper or watched news on TV lately, it’s likely you’re aware that mortgage rates are very low. Historically low! How long they’ll remain so low is anybody’s guess. But if the rates increase while you’re waiting for the loan to come back, well, demand for your home may not be nearly as strong. Bottom line: take advantage of selling your home while rates are this low.

• Quicker Transactions. Right now, there are, admittedly, fewer real estate transactions than there will be in the spring. The lesser number of transactions means the mortgage lenders have fewer loans to process, attorneys have fewer closings to do, and home inspectors have fewer inspections to do. All of this should translate to a quicker, smoother, more seamless closing for all parties. And a quicker transaction is going to be less stress for you.

The Best Agents Are Always Working Hard. Any real estate who tells you that fall and winter are bad times to sell is simply not someone you want selling your home! A great agent knows how to adapt to the current season and market his/her listings to reflect that. Great agents are creative at making suggestions, giving useful tips on how to sell a home in foul weather as well as fair.

Volunteer Handy Persons Wanted

Want to enjoy a really rewarding experience? Help Bergen County’s senior citizens and disabled persons remain safe in their own homes.

The Chore Service, sponsored by the Volunteer Center of Bergen County, performs minor household repairs that senior citizens and disabled persons can neither do themselves nor get anyone else to do.

A Chore Handyperson volunteer goes on service calls one day a week from 8:30 a.m. to 2 p.m. Volunteers enjoy being part of a crew of two to four people who ride in specially equipped Chore vans. Each crew is assigned 4-5 service calls each weekday.

Last year, Chore volunteers visited over 2,000 homes and performed 4,000 repairs for grateful citizens. This year, the request for service is even greater, and additional volunteers will be needed to fill new and existing shifts.

Volunteering with a Chore crew offers an opportunity to get out, meet new people, stay connected with the broader world and share handyman skills.

Prospective volunteers should be able to perform minor household repairs such as those that able-bodied homeowners must do. Ideally, volunteers will be available on a regular basis so Chore can schedule a regular day with the same crew. Volunteer van drivers/handy-people are especially needed.

Good afternoon and thank you all for being here on this, the first day of 2015.

• 2014, in some respects, was a turning point in our financial position. It is much more positive than it has been in recent years. This governing body, in 2014, worked hard to control spending, as did our employees and that, along with the Giants training facility settlement with the New Jersey Sports and Exposition Authority, has put us on a path to financial stability.

• Although we are still not where we need to be, we have progressed and hopefully, that will continue into 2015 and beyond but that will only happen if we do not let ourselves revert back to some of the things that put us into the position we found ourselves in and we are able to overcome the obstacles we have to deal with that are not of our doing.

• In my very first New Year’s address 19 years ago I spoke about how important financial stability was when trying to address the many issues facing our community and we are able to overcome that and still have financial stability.

• I am proud of the fact that we have the lowest average property taxes for home owners, except for Teterboro, in Bergen County. As members of this governing body we are obligated, on behalf of the taxpayers in East Rutherford, to try to maintain that status along with providing a positive quality of life for all our residents but even if we succeed in controlling our costs and are able to increase our revenues that still may not be enough because of these many obstacles we face that are not of our own making.

• It is not easy to achieve the balance we need between stable taxes and quality services, especially when the people running our state government come up with costly mandates and laws that find ways to divert monies to Trenton, monies that are rightfully ours, so they can use it to close their budget gap.

• They saddle us, the municipalities, with these laws but exempt themselves from having to abide by them.

• We have to contend with archaic property assessment laws. Some Supreme Court decisions have also made it more difficult for us. Then, of course, there are increases in some expenses that we have no control of but no matter what the obstacles are that we have to deal with, it is certainly worth the effort to work through them and it is still our job to try to achieve this balance on behalf of the taxpayers of East Rutherford.

• This past year a tax appeal was filed by the Federal Reserve Bank which our attorneys and tax experts are diligently defending but this is an unusual situation. Regardless of if it being federal property, the appeal was filed in the federal courts.

• Our professionals believe we are not going to win because the standard is harder to gauge because it is being heard in federal court as opposed to State Tax Court. We are also dealing with a judgmental standard that ordered us to lower the assessment of the office building on Route 3 to seventy five million dollars but then it sold for one hundred nine million dollars, close to what we had it assessed for, which adversely affects our ratio and thus raises our tax rate, hurting every other tax payer.

• I have recommended, on behalf of the taxpayers, that we file an appeal arguing that that assessment should reflect the true market value. Unfortu nately, it not just tax court decisions that create budget problems for us.

• Insurance premiums have increased 13%. A family plan now costs us over $24,000 dollars a year. Even single coverage, approaching $10,000 a year, is escalating at an alarming rate.

• Putting this into perspective, if we hired someone for an annual salary of $30,000 and they had a family, it would actually cost us $54,000 dollars plus dental, prescription, eye glass and our share of the pension.

• The question we have to ask ourselves is how do we fund this without raising taxes? This is why we have to be careful that any work we do is absolutely necessary.

• Our insurance consultants are looking for ways we could reduce health benefits costs but right now the NJ Health Benefits are still the best option.

• You have been hearing about it for the last 12 years, you have read about it and yes, I have talked about it pretty much in every New Year’s address I have given during those years; Xanadu/American Dream.

• This year I had hoped to have something more positive but unfortunately I can tell you is that we are still negotiating an agreement along with continuing as we have from day one, the possibility that a State authority, such as the NJSEA, issue the non-recourse bonds. Our municipal attorney Dick Allen, in the lead, continues to do a great job for us.

• The same issues that we have spoken about for a while are still not agreed upon, such as insurance which would give us added protection and sewer agreements along with some other issues.

• Because false information, at times, has been circulated in an effort to mislead us, we need to continue educating the public on the importance of us not completely understanding or being confused about this issue, I have to emphasize once again that these negotiations have not cost the tax payers a dime; never will and East Rutherford tax payers will never be at risk.

• If these two requirements are met, along with a deal that will be financially benefi cial for East Rutherford, then there is no deal.

• This is not something we nor even wanted; however, always we must keep in mind that after 40 years of dealing with the NJSEA, we should know whether or not we approve of a NJSEA project, when it is in their jurisdiction they pretty much find ways to do what they want and if we just say no against it, it does not matter.

• They will find a way to do it which could result in the project being done and we being left with nothing to show for it.

• Right now, from the financia l aspect of this, the proposed agreement with Triple Five for the Meadowlands is financially benefi cial. East Rutherford would be receiving well over one hundred million dollars plus other budget reductions.

• The question is not really, more than at anytime in the past, it does seem that it may actually open. Leases have been signed and some construction work has started. We can only hope that this American Dream issue is resolved one way or another in 2015.

• Another community event, even with the weakness of this two major issues, that was successful was the Columbus Day parade and street festival.

• And, of course, who could forget the day of the Super Bowl in East Rutherford. The “Tailgate” party on Park Avenue attracted close to seven thousand people who had the time of their lives, was financially benefi cial for our businesses and most importantly, it created a very positive image for East Rutherford.

• People are still talking about it. I have to thank the Civic Pride Committee for the great job they did in organizing these two events. I do believe this will be the completed the early year to a community with the posi tive effe ct they generate.

• The reason why the pre fer red approach to addressing the issues in these areas is redevelopment is because we still have a number of under used contaminated properties throughout the town and by incorporating them into redevelopment plans it helps us to bring in needed rattles plus tax reve nues and residents have an opportunity to have more control and say over what type of development will be allowed in these areas; however, we must also keep in mind that a in a dem ocracy property owners have right to develop their property just as we have a right to control what is built on that property but do not have the right to deny development unless we buy the property which we cannot afford to do.

• This was something I new was installed at the sewer pump station. Because it was damaged during Sandy, we were eligible for FEMA money. Thanks to the work of John Giancascio and Antonello we will be receiving close to the total amount of what it cost us. Another generator is being in stalled at the civic center which should be completed the early part of 2015 and a third, with the help of a $75,000 grant, is planned for Engine Company 2.

• The discussions with Rutherford and Norfol k South ern about acquiring the former railroad line that borders East Rutherford and Rutherford between Maple Street and the Passaic River are ongoing. We have done the appraisals and now are looking to have another meeting, hopefully sometime this month. Counselor Lahullier has taken the lead with this project.

• Much has been said about sharing services and consoli dation and how it can save a municipality money which sounds great but when you start delving into it a little deeper you start to find that the savings are not as great as some portend them to be plus there is always the possibility you could see a reduction in services.

• A recent report claimed that, in most cases, consolidation does not provide the sav ings that many have claimed it would. That is why the process takes so long.

• Along with the American Dream project three other Meadowlands issues we need to stay on top of in 2014 are the continuing of the NJSEA with the NJMC; resi dential development in the Meadowlands and the push for casinos and/or a convention center in East Rutherford.

• We have to make sure that any merger or absorption of one agency into the other does not affect any of our agreements we have with the great as or create any other adverse effects.

• Obviously, as far as the other issues, we need to moni tor the effect these issues have on East Rutherford and to make sure that we have a seat at the table when any of these proposals are introduced.

• We don’t have to look any further than just the Super Bowl to see how great an event it was. From everything I have heard or read, it does not seem very promising that common sense will be at the forefront of the Casino discussions.

• This year the police department and fire department both received the recognition they deserved for their outstanding work leading up to and the day of the Super Bowl.

• All the various federal and state agencies had nothing but praise for both our depart ments which presented a positive image for East Rutherford. Also without the help of our police and fire departments and DPW along with all the volun teers, our 2014 Meadowlands Tailgate Party, held on Super Bowl Sunday, would not have achieved the success the had.

• It is an honor for me to serve on this governing body and I thank the people of East Rutherford for the opportuni ty to have served them for so many years.

To all of you; to all our residents and to all who are part of our community may you have a happy, healthy and prosperous 2015.

Happy New Year and God Bless You.
I wonder at times if I am alone. Feels like it when no one talks anymore.

Did you ever notice that there are so many forms of communication, we no longer communicate? Let’s see, Twitter, email, Instagram, texting, and Facebook. All created in a way, to avoid face to face meetings and long conversations. Everyone typing in pieces and incomplete sentences, using codes like omg, lol, imao, brb, that can be nothing more than a confusing jumble of letters for those that don’t know what they stand for. Not that these things are necessarily bad. Sometimes you don’t have the time to speak for a long time. What I noticed is that society has shifted to use these things and meaning is sometimes lost in the delivery, while the user mutilates the English language.

Penmanship and letters are also a thing of the past. My English teacher would be sick to her stomach if she saw the way we write. She would also slap me for my bad grammar.

I am not of the new world. I don’t wear sunglasses because I always thought it impolite to speak to people when they can’t see my eyes.

I hate the phone calls when you need something and all you need is a for my bad grammar.

I know not what course others may take; but as for me, give me liberty or give me death!

Patrick Henry was born in Virginia in 1736. He worked on the family farm as a kid and went to several schools while also being tutored by his father. He married in 1752 and received land of his own for a wedding gift. He worked hard on the farm but it never yielded much. He was not shy about saying what he thought. He was still studying to be a lawyer. He worked the farm until 1760 when he met all qualifications and finally achieved his goal. He was now a lawyer.

Patrick Henry was on a roll and now questioned the reactions of England to colonial petitions and he questioned England’s notions of peace as they present an armed force in the colonies. They knew of no way of judging the future but by the past. He continued, “Ask yourselves how this gracious reception of our petition comports with those warlike preparations which cover our waters and dominate our land. What is it that gentlemen and armies necessary to a work of love and reconciliation?”

“Let us not deceive ourselves, sir. These are the impleiments of war and submission,” the last arguments of which kings resort.”

Patrick Henry then attacked arguments against reconciliation. “And what have we to oppose to them? Shall we try argument? Sir we have been trying that for the last ten years. Have anything new to offer upon the subject? Nothing. We have held the subject up in every light of which it is capable; but it has been all in vain.”

Henry spoke about the strength of the colonies. He told them they could never be stronger than now. He knew there was nothing left to do but to join Massachusetts in a struggle for liberty.

“I am not the first man to cry, Peace, Peace—but there is no peace. The war is actually begun! The next gale that sweeps from the north will bring to our ears the ceaseless recrudescing arms! Our brethren are already in the field! Why stand we here idle? Is what it that gentlemen wish? What would they have? Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take; but as for me, give me liberty or give me death!”

Witnesses said the effect of Henry’s speech shook the House to the foundation. It is said that after the speech the House voted to mobilize and go to war to fight for liberty. He is remembered now as being the man that had the guts to say in public what almost everybody else was thinking. America can use his example today. How times have changed in the last 240 years. I doubt his speech would have had the same effect if he tweeted it. ##

Veterans Workshop to Create Small Business

This event is free to all veterans, but pre-registration is required. Please contact Diane Sedmeir at sedmeir@felician.edu or 201-599-6102 for more information or to register.

Rutgers Business School and the U.S. Small Business Administration are co-sponsors of this workshop.
**Safeguard Your Home**

**BCUA Collects Household Hazardous Waste**

While most people are interested in safeguarding their homes, many dangerous and environmentally unsafe materials gather dust in garages and basements, such as batteries, paints, and insecticides. Hazardous waste can safely be removed from homes and be recycled or disposed of properly at the Bergen County Utilities Authority (BCUA) Household Hazardous Waste Collections.

BCUA will collect household hazardous waste on Saturday, March 7, 2015, from 9 a.m. to 3 p.m., at the BCUA foot of Empire Boulevard) in Moonachie -- rain or shine. This service is free of charge for Bergen County residents -- ID is required.

A partial list of acceptable materials for collection includes: aerosol cans, antifreeze, batteries, blacktop sealers, disinfectants, fertilizers, fire extinguishers, herbicides, insecticides, mercury switches, paints, pesticides, propane gas cylinders (1 lb. & 20 lb. only), solvents and thinners, used motor oil, varnishes.

A partial list of unacceptable materials includes: unlaunched batteries or containers with unknown contents, regulated medical wastes, radioactive materials and explosives, containers larger than five gallons, compressed cylinders (oxygen or acetylene), pressure treated lumber or railroad ties, computers, electronics and tires.

For detailed information log onto www.bcua.org or call 201-807-8525.

**National Poison Prevention Week**

Children Act Fast, So Do Poisons

South Bergen Public Safety officials remind area residents to observe National Poison Prevention Week, March 15-21, 2015, which is designated to highlight the dangers of poisings and how to prevent them.

More than 2 million poisonings are reported each year to the 57 poison control centers across the country. More than 90 percent of these poisonings occur in the home. The majority of non-fatal poisonings occur in children younger than six years old. And, poisonings are one of the leading causes of death among adults.

Most poisonings occur when parents or caregivers are home, but not paying attention. The most dangerous potential poisons are medicines, cleaning products, antifreeze, windshield wiper fluid, pesticides, furniture polish, gasoline, kerosene and lamp oil.

- Store medicine, cleaners, paints/varnishes and pesticides in their original packaging or locked cabinets or containers, out of sight and reach of children.
- Install a safety latch -- that locks when you close the door - on child-accessible cabinets containing harmful products.
- Purchase and keep all medicines in containers with safety caps. Discard unused medication.
- Never refer to medicine as “candy” or another appealing name.
- Check the label each time you give a child medicine to ensure proper dosage.
- Never place poisonous products in food or drink containers.
- Maintain working smoke and carbon monoxide detectors.

**Riverkeeper Petitions EPA to List Hackensack River as Superfund Site**

On February 12, 2015, Hackensack Riverkeeper formally petitioned the United States Environmental Protection Agency (EPA) to study whether the main stem of the Hackensack River should be listed under the federal Superfund law.

The drastic action was taken on behalf of the tidal reaches of the river that stretch for twenty-two miles from Van Buskirk Island in Oradell, NJ to the river’s terminus at Newark Bay.

Bottom sediments throughout the area are contaminated with a long list of toxic chemicals and heavy metals. Captain Bill Sheehan, Riverkeeper and executive director, filed the petition with the EPA Region 2, which now has one year to complete a “preliminary assessment” in the case.

The purpose of the preliminary assessment is for the Agency to determine whether and to what extent the river is eligible for Superfund designation.

For over two hundred years, industrial uses interested the Hackensack River as a convenient dumping ground.

As a result, there are five current Superfund sites on the river or its tributaries, and literally hundreds of sites within its watershed (drainage basin) that are one of the leading causes of death among adults.

Most poisonings occur when parents or caregivers are home, but not paying attention. The most dangerous potential poisons are medicines, cleaning products, antifreeze, windshield wiper fluid, pesticides, furniture polish, gasoline, kerosene and lamp oil.

**Full Worm Moon**

The March full moon will appear on Thursday, March 5, 2015, at 1:05 p.m. It is called the “Full Sap Moon.” According to the Farmer’s Almanac, as the temperature begins to warm and the ground begins to thaw, earthworm casts appear, heralding the return of the robins.

Northern tribes also referred to this Moon as the “Full Crow Moon” when the cawing of crows signaled the end of winter, or the “Full Crust Moon,” because the snow cover becomes crusted from thawing by day and freezing at night.

The “Full Sap Moon...” marks the time of tapping maple trees in another variation. To settlers, it was also known as the “Lenten Moon” and was considered the last full moon of the winter. The Native American Indians of the northern and eastern United States kept track of the seasons by giving a name to each recurring full moon. European settlers followed the custom. ###
HHPD Officer Honored by Mayor and Council

During the January 13, 2015, Hasbrouck Heights Mayor and Council meeting, Mayor Heck, Chief Colaneri, Councilman DiPisa and Councilman Gonzalez presented Certificates of Recognition to the following Police Officers:

- **Life Saving CPR:** Det. Sgt. Werner, Ofc. Loos and Dussault were dispatched on December 22, 2013 when a call was received requesting an ambulance for an unresponsive male. The Officers responded and found the victim on the floor with no pulse, performed CPR and continued until relieved by the HHPD and Medics. Due to their actions along with EMS and Medics, the victim survived.

- **Life Saving CPR:** Det. Armeli and Officer D’Amico were dispatched on May 31, 2014 when a call was received requesting an ambulance for an unresponsive female. They responded and found the victim with no pulse, shocked the victim with the AED and began CPR continuing until relieved by HHPD and Medics. Due to the actions of the Police Officers, EMS and Medics, the victim survived. Both Officers are also HHPDs CPR instructors.

- **Excellent Police Service Award:** The Bergen County Prosecutor’s office started a Heroin Initiative requesting local departments assign an Officer to work with the County Narcotics Task Force and other local Officers from Bergen, Passaic and Sussex Counties. Officer Dussault was assigned and through the three months his Squad was responsible for 40 arrests of suspected drug dealers and users as well as the recovery of five stolen guns. In addition, a large amount of CDS including decks of heroin, large amounts of crack cocaine and numerous pills were seized. The County Prosecutor praised Ofc. Dussault and all the members of this initiative.

- **Unit Citation Awards:**
  - On March 15, 2014 and Minit Mart on March 16, 2014, Detectives began investigation and determined that the same individual was responsible for both robberies. They began to work with Detectives from Lodi, Garfield and Elmwood Park resulting in two suspects being identified and charged with numerous armed robberies throughout the area. Det./Lt. Colaneri, Det./Sgt. Werner, Det. John Behr and Det. Joseph Armeli arrested two suspects for armed robbery, unlawful possession of a firearm and theft of moveable property.

- **Unit Citation Awards:**
  - On June 5, 2007 a call was received from a resident of Columbus Avenue of a possible burglary in progress. All Hasbrouck Heights officers on duty were detailed and confirmed a burglary had just taken place. They cordoned-off the area and one suspect was spotted on foot by Det./Sgt. Baker who gave pursuit on foot. Chief Colaneri located the suspect hiding in a shed and effected the arrest with Lt. Lesho and Det./Sgt. Baker. A second suspect was located in a parked vehicle. The suspects, a father and son team, were found to have committed numerous residential burglaries in southern Bergen. Capt. Rinke and Det./Sgt. Werner were awarded Unit Citation Awards. Chief Colaneri, Lt. Lesho and Det./Sgt. Barker were awarded Excellent Police Service Awards.

- **Excellent Police Service Award/Meritorious Police Service Award:** On April 26, 2014, Ofc. Brunetti, while off duty, observed an individual walking on Terrace Avenue pointing to cars and pretending he was shooting. Ofc. Brunetti reported the incident with Det. Behr responding. The suspect ran and Det. Behr chased after him and observed the suspect attempt to pull a handgun from his wrist band. He tackled the suspect and held him until other units arrived. The suspect was found to be in possession of a handgun loaded with hollow point bullets. Ofc. Brunetti was awarded the Excellent Police Service Award. Det. Behr was awarded the Meritorious Police Service Award.

HHPD Collectable Trading Cards

The Hasbrouck Heights Police Department is again offering their “trading cards” program. They have offered this program twice before, the last was in 2007. Kids must approach an officer for their baseball-style trading card. When they collect a complete set, they are awarded a prize.

Sponsors are welcome. Your business, organization or personal name will be printed on the back of Law Enforcement Collectable Trading Cards. Cost is $80. Gold Sponsors will be provided cards of the sponsored member of the Hasbrouck Heights Police Department.

The cards can be displayed and distributed to the youth members of the community who will be frequenting their establishments in order to collect that particular card to complete the collection of the 1st Edition Set. These cards will also be possessed by Patrol Officers who will have interaction with youth members of the community during the course of their routine patrol duties.

Silver Sponsorships are available to those making a contribution to defray costs or any gift certificates, discount coupons or other items which will help to serve as prizes for the participating youth members of our community who have collected the entire set of Hasbrouck Heights Police Department Trading Cards.

For more information call 201-288-1000.

The Hasbrouck Heights Fire Department responded to 329 Route 17 on January 27, 2015, at 8:21 p.m., for a reported grease fire at McDonald's. First arriving units found a fire in the deep fryer and vent system. Chief Pat Hayes transmitted a second alarm. The fire was quickly extinguished. Mutual aid from Wood-Ridge, Lodi, and Wallington assisted.

On the afternoon of Thursday, January 22, 2015, Carlstadt Brownie Troop 5492 stopped by the Carlstadt Volunteer Ambulance building for a First Aid Class and a tour of CVAC headquarters and the ambulances. The class was given by EMT Kristen Llewellyn and Captain Henry Collette. The girls were learning first aid to obtain their first aid badge. Each Brownie made a first aid bag prior to coming to visit CVAC during their last meeting. At the end of the class, each girl was presented with a first aid activity book and emergency information cards to enter their first aid kit.

On February 7, 2015, at around 1:30 a.m., the Lodi Fire Department responded to a Columbia Avenue two-family home. The three-alarm fire was declared under control by 5 a.m. The cause has not been determined and is under investigation.

No serious injuries reported, although a firefighter was hit in the face with a water stream and taken to HUMC.

On February 24, 2015, Theresa Ayala, Dennis P. Kronyak III and Colleen Cribben graduated from the NJ Emergency Medical Technician (EMT) Program. They are members of the WRFD and therefore members of the WRFD Emergency Squad. Theresa and Dennis are also firefighters and Colleen is an EMS member. The course required that students complete 200-250 class hours, 10 hours of study time, written exam, practical evolutions and final NJ State examination.
